

“Battlefield Proven Armor”

Armored Land Rover Defender 110 TD5

MDT Armor is a leader in state-of-the-art lightweight armoring of vehicles. MDT Armor uses technology that has been continuously upgraded using extensive battlefield experience. Using advanced and sophisticated lightweight materials, the MDT Defender is well within the manufacturers Gross Vehicle Weight, with 5 passengers and their equipment. This increases performance and safety, reduces maintenance cost and increases vehicle life. MDT Armor has proven itself in numerous terror attacks, saving passengers' lives. Time and time again.

Armoring level	360° perimeter, defeats military assault rifles at point plank velocities – 7.62X39 AK 47 M1943 (Opaque defeats AP), 5.56 M-16 (M193 and AP SS109) and 7.62X51 M80 NATO ball. Limited perimeter protection against IEDs (Improvised Explosive Devices). Roof protection designed to defeat above threats at shooting range of 10 meters, at 68 degrees Nato. Floor protection against 2 X DM51 grenades.	
No. of passengers	Driver + 4 passengers
